On your **computer**:

1. First, click on your own name to get to your profile page. This is the very first option on the left-hand list.

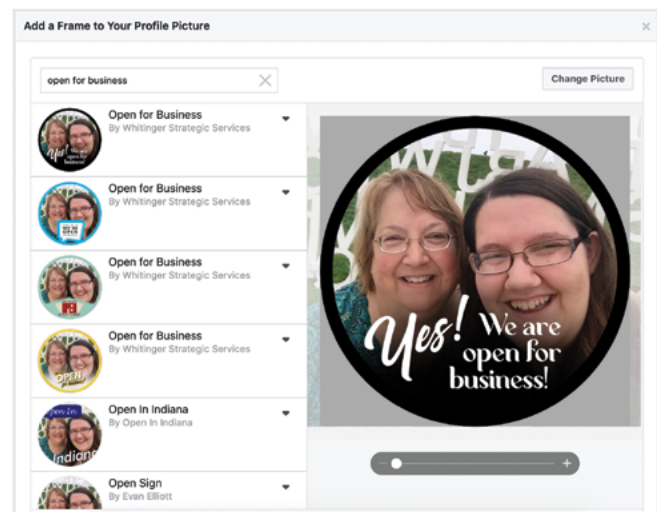

2. Hover over your current profile picture and click the part where it says “Update”.

3. A pop-up will appear with the choices “Upload Photo” and “Add Frame”. Select “Add Frame”.

4. Search for the phrase “Open For Business”. Select one of the four that is “By Whitinger Strategic Services”, then reposition your profile photo as needed - in some cases, you may need to zoom out or change the photo for the frame to work properly.

You can also choose to say something about your profile frame, such as giving details about your business or a short sentence saying when you’ll be open! You can also use the hashtag #OpenForBusiness. Once you’ve selected your options, click “Save”.
